Schaum's Outline of Spanish Vocabulary, 3ed

The ultimate rapid language-learning guide! For those who've despaired of ever learning a foreign language, here, finally, is a book that will make the words stick.

Read PDF Schaum Outline German Grammar Fourth Edition

At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school -- who does? -- rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources. In *Fluent Forever* Wyner reveals what he's discovered. The greatest challenge to learning a foreign language is the challenge of memory; there are just too many words and too many rules. For every new word we learn, we seem to forget two old ones, and as a result, fluency can seem out of reach. *Fluent Forever* tackles this challenge head-on. With empathy for the language-challenged and abundant humor, Wyner deconstructs the learning process, revealing how to build a foreign language in your mind from the ground up. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery, rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. Soon, you'll gain the ability to learn grammar and more difficult abstract words--without the tedious drills and exercises of language classes and grammar books. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Schaum's Outline of German Grammar, 4ed

Each point of grammar and structure is explained simply, and illustrated with examples, in this powerful study guide. The next-best thing to a private tutor, this book makes even difficult topics like declensions clear. Students begin by mastering the Cyrillic alphabet and correct pronunciation. The many practice exercises start readers using this language in everyday situations.

Schaum's Outline of Russian Grammar, Second Edition

Schaum's is here--to help you write great research papers The experts at Schaum's are at your service--ready to help you with concise, complete, step-by-step instructions that will make writing research papers a breeze, not a burden. The clear, concise guidelines and in-depth instruction in this book will show you how to write high-quality research papers that will help you succeed academically and in the professional world. You'll quickly learn how to: Select and narrow your topic Evaluate and present evidence persuasively Avoid plagiarism and other novice mistakes Learn from examples, sample papers, and model documentation

Schaum's Outline of Russian Grammar

German vocabulary book + German dictionary This German vocabulary book contains more than 3000 words and phrases which are grouped by topic to make it easier for you to pick what to learn first. On top of that, the index in the second half of the book provides you with a basic German-English as well as English-German dictionary which makes this a great resource for learners of all levels. What you can expect from this book: This German learning resource is a combination of German vocabulary book and a two-way basic German dictionary: Part 1 - Topic based German vocabulary book: This is the main part of the book and represents a list of chapters each containing German vocabularies for a certain topic. The German vocabularies in the chapters are unsorted on purpose to separate remembering them from a defined alphabetical order. You can start at any chapter and dive directly into the topics that interest you the most. Part 2 - Basic English-German dictionary: The index in the second half of the book can be used as a basic German dictionary to look up words you have learned but can't remember or learn new words you need. Part 3 - Basic German-English dictionary: Easy to use and with just the right amount of words, this third part finishes off with a second index that allows you to look for German words and directly find the English translation How to use this German vocabulary book: Not sure where to start? We

Read PDF Schaum Outline German Grammar Fourth Edition

suggest you first work your way through the verbs, adjectives and phrases chapters in part one of the book. This will give you a great base for further studying and already enough vocabulary for basic communication. The German dictionaries in part two and three can be used whenever needed to look up words you hear on the street, English words you want to know the German translation for or simply to learn some new words. Some final thoughts: Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work very well. Together with the basic German dictionary parts, this vocabulary book is a great resource to support you throughout the process of learning German and comes in particularly handy at times when there is no internet to look up words and phrases.
